Performance Accessories

PECO remote sensors are highly accurate and stable. Enclosures are provided for both indoor and outdoor mounting. A remote probe allows the sensor to be placed in duct work or spaces where temperature sensing is desired.

Outdoor Sensor

PECO 70327 outdoor sensor can be used with most any PECO thermostat. This high quality outdoor remote temperature sensor has a weather-resistant cover for reliable performance in every climate. It also provides easy mounting in a small compact design.

Remote Probe

PECO 68671 remote probe sensor can be used with most any PECO thermostat. It is used to sense temperatures in duct work or other locations.

Indoor Sensor

PECO SP155 indoor sensor can be used with most any PECO thermostat. The Indoor sensor can be placed for optimal temperature sensing, allowing the thermostat to be located for convenience, or control of use by the inhabitant.
